

## **Web Application Developer (Silverlight + C#)**

Hyvista Corporation is a small company located in the Norwest Business park in North-West Sydney. The company specializes in the acquisition and processing of hyper-spectral remote sensing imagery.

We currently have a position available for paid vacation work developing a web-based application for the presentation and querying of a GIS spatial database. Candidates with experience or a strong interest in Silverlight / WPF technologies and back-end programming in .NET C # are encouraged to apply.

The position is offered on a casual basis with remuneration between \$500 - \$600 p.w.

Please send a current CV and portfolio / examples of any previous development projects to:
